Portfolio: amrutha-gr.github.io | **LinkedIn:** linkedin.com/in/gr-amrutha

Career Objective

Creative UI/UX Designer and BCA student (9.2 CGPA) with a strong foundation in building user-centric digital products. Experienced in creating high-fidelity prototypes, design systems, and responsive web interfaces. Combining a developer's logic with a designer's eye to deliver seamless, accessible, and visually compelling user experiences.

Design & Technical Skills

- **Design Tools:** Figma, Canva
- **UI/UX Specialized:** Wireframing, High-Fidelity Prototyping, Design Systems, Typography, Color Theory, User Flows, Information Architecture.
- **Technical Implementation:** React.js, Tailwind CSS, HTML5, CSS3, Angular (Ensuring design-to-code accuracy).
- **Soft Skills:** Design Thinking, Problem Solving, Visual Storytelling, Empathy-Driven Design.
- **Development:** Web & Mobile App Development (Android)

Work Experience

Visual Designer Intern | Siage Solutions | *Aug 2025 – Present*

- Architecting modern, user-friendly interfaces and interactive prototypes for complex web and mobile applications using **Figma**.
- Establishing and maintaining **Design Systems** to ensure consistent layouts, color harmony, and visual flow across products.
- Conducting design audits and collaborating with developers to ensure 100% pixel-perfect implementation of responsive designs.

Full Stack Developer Intern | CodTech Solutions | *Mar 2025 – May 2025*

- Bridged the gap between design and development by building responsive frontend components in React.js.
- Optimized user experience (UX) by improving navigation flows and interface performance for web applications.

Key Projects

Personal Design Portfolio | amrutha-gr.github.io

- **Role:** Lead Designer & Developer
- Designed a "Glassmorphism" inspired portfolio to showcase a clean, professional aesthetic.

- Focused on **Accessibility (a11y)** and **Responsive Web Design (RWD)**, ensuring a seamless experience across mobile, tablet, and desktop.
- Integrated custom micro-interactions and transitions to enhance user engagement.
- Tech & Tools: Figma, React.js + Vite, Css, Canva

MedAI – Healthcare UI/UX Case Study

- Designed a comprehensive medical dashboard featuring a symptom checker and AI chatbot.
- Focused on simplifying complex health data into digestible visual cards and intuitive navigation for non-technical users.
- **Tech:** React.js, JavaScript, Node.js, HTML, CSS, MongoDB

SpyShield – Mobile App Interface (In Progress)

- Creating a high-trust visual language for a privacy-focused Android application.
- Designing real-time alert systems and clear "Privacy Logs" to help users manage app permissions effortlessly.
- **Tech:** Java, XML, Firebase, Android SDK, Kotlin, Android Studio

Education

Bachelor of Computer Applications (BCA)

Seshadripuram Arts, Science & commerce College, Bangalore

2022-2025 | CGPA: 9.13

Courses & Certifications

- **Cyber Security** – Microsoft
- **Full Stack Development** – Online
- **Python & Power BI** – Dell Technologies
- **Basic MongoDB** – Online
